Byers Peak receives award from ActiViews

Wheat Ridge, CO, November 13th, 2009-----Byers Peak, Inc. today announced it was selected by ActiViews to manufacture their Image Guidance System and supporting disposables. ActiViews is an early stage medical device company developing an Image Guidance System.

“Byers Peak has the unique ability to support our device and disposable manufacturing as we continue to develop our Image Guidance System. By working with Byers Peak, we are able to manufacture our complete system under one roof, allowing us to maintain a closed loop between performance and quality”, said Yuval Zuk, CEO of ActiViews.

“We are thrilled to have been selected by ActiViews to be the manufacturer for their Image Guidance System. This relationship supports our model of helping early stage medical device companies from prototype development through clinical trials and into market introduction”, said Phil Prescott, President of Byers Peak.

About Byers Peak

Byers Peak is a leading contract manufacturer of low to medium volume, complex medical, biotech and industrial instrumentation. Their technology strengths in manufacturing, engineering, assembly and field service includes fluidics, pneumatics, RF, electronics and systems integration. Byers Peak is ISO 9001:2000 and ISO 13485:2003 certified, and GMP/QSR compliant. For more information, please visit www.byerspeak.com

About ActiViews

ActiViews, with offices in Haifa Israel, develops, manufactures and markets novel optical guidance products for Interventional Radiologists. ActiSight, their first product, was tested in clinical trials in Canada and Israel (lung biopsies) and has marketing approvals in Europe (CE), Canada and Israel. Future products will offer guidance solutions for MRI and C-Arm fluoroscopy. ActiViews was founded in 2006 and raised funds from Ofer Hi-Tech, Evergreen Venture Partners and 7 Health Ventures.
