Industry Experience

Surgical Devices
Therapeutic Devices
Imaging Devices
Diagnostic Instrumentation
Systems Integration
Industrial Instrumentation
Telecommunications
Virtual Simulation

Technology Experience

Peristaltic pumps
Heat exchangers
Pressure vessels
Blood leak detection
Air bubble detection
RF power
Impedance sampling
Temperature monitoring
Flow and pressure monitoring
Vacuum and pressure monitoring
Leak testing
Motion control
Lasers and light sources
Laser power testing
Xenon light assembly
Electronic assemblies using SMT and TH components
Electronic assembly functional test, ICT and Flying Probe
Fiber etching for DWDM pigtails
Systems integration
Custom PC configuration
Video integration
